

Review Questions

Is the final product legible to the normal user?
Can the user navigate easily?
Does the website look consistent?
Does each individual piece of the webpage work?
- Social media buttons on home page
- Each link on the header bar
- Nutrition game
- Coach reading student names
- Gym locator gives relevant location info
How long does it take to load each page?
Can users access permissions designed only for them?
Can parents pay for a monthly subscription?

Issues

Links are broken and the website is redirecting too much
The website had a menu bar with too many links and options. Including links to dead pages.
The website seems to be missing a sense of coherence regarding the layout.
Registration only allows the coaches to make accounts so far.
None
Missing pages
None
Nonexistent
Map shows one single location and does not give directions
Under 1 second
The page hierarchy is not properly implemented yet.
Payment is not currently available. Researching plug-ins.

Changes

The pages were reviewed and then altered to correctly point to the correct links
Edit the header and add in the
We need to go in and change the CSS and appearance of buttons and optionality.
Need to go into the registration settings and add in more whitelisted email addresses along with the role that the particular email will be given.
Add in all the missing links and make sure they work
Add in the game/nutrition page.
None
Still need to get this page up and running
Need to be able to link up the current location of the user with the location in the web page
None
Need to link the registration to the roles and then restrict the content properly
Planning on using WordPress plug in, WooCommerce to implement payment.
